ROITIV Group LTD

Remote Software Developer

As a Software Developer at ROITIV Group LTD, I worked on a small Agile team in a startup environment to prototype and build applications. My daily responsibilities included:

- Brainstorming with team members to come up with new application concepts,
- Working with stakeholders to gather functional and technical requirements,
- Creating wireframes and prototypes to test our ideas,
- Writing code to develop applications,
- Utilizing automated and manual methods to test our code,
- Facilitating releases of software upgrades,
- Documenting all code changes...
